 Conjunctions.

Culture

Bonfires of San Juan (Alicante)

Alicante celebrates the arrival of summer with the bonfires of San Juan. In a spectacular display of music, colour and fireworks, thousands of people throng the streets to experience this *fiesta* which pays tribute to fire.
 To celebrate the start of summer, locals used to go to the countryside to dine on 23 June: they would eat traditional food and, at midnight, would light campfires, dance around them, throw firecrackers and swim in the sea. This custom endured over the years and in 1928 the *fiestas* of the Bonfires of San Juan were formally constituted.
