Culture

San Fermín bull-running festival

The running of the bulls is the main attraction in this famous celebration. The city of Pamplona is world-famous for its fiestas of San Fermín Festival. Thousands of people go there every year to experience the risk and the thrill of the running of the bulls. San Fermín starts at 6am on 6 July. The first running of the bulls takes place the next day: at 8 am the doors to the Santo Domingo corral are opened and hundreds of people run ahead of the bulls on a route around the old town to the bullring.
