Dear Parents and Carers

As many of you are aware, the [Felix Project](#) is back! Lowry Class have been working hard to sort and hand out food to parents by the allotments - thank you weekly volunteers!

The Felix Project prevents more than 25 tonnes of food entering landfill and helps distribute over 50,000 free meals each week.

Amazingly, at Grange Park, we have weekly deliveries every **Thursday**. As an eco-friendly school we are trying to reduce food waste whilst ensuring pupils have additional access to nutritious food.

Food is available to collect from our volunteers at the allotment stall. Every family has a chance to fill a bag of assorted food: grains, snacks and fruit. The food can be past its 'best before' date, misshapen or just surplus. As we do not have time to check each item, please ensure you check the food you collect before it is eaten.

Food is available for everyone however, **if you believe you would benefit from additional food items or meals, please let us know as you can be allowed to enter the school gates a few minutes before everyone else.** Please [contact the office](#) if you need support with this.

Ensure you bring a bag to fill up!

### **How you can help!**

Since the pandemic, the Felix Project have trebled their food deliveries and the demand for food has vastly outstripped their supply. The charity is looking for adult volunteers. Shifts are

great fun and very flexible and what better way is there to spend a morning than rescuing food that would otherwise be wasted, and ensuring that those suffering food insecurity are given the support that they need. [Click here to find out more.](#)

Many thanks  
Sophie
